PROFESSIONAL SUMMARY

Motivated junior IT professional with a solid foundation in network administration, network architecture, and proactive routing workflows. Currently completing formal **CCNA training** to build upon a proven track record of operational reliability, customer-facing technical support, and high-pressure team collaboration. Eager to leverage technical competencies including **LAN/WAN infrastructure layouts**, **Wireshark diagnostics**, and **Cisco IOS configuration** within an enterprise network environment.

TECHNICAL & OTHER SKILLS

Core Category (Bus / System / Network / ToIP): Cisco / Cisco IOS / Command Line Interface (CLI) / Wireshark / LAN / WAN / TCP/IP

Operating Systems: Windows Server / Ubuntu / Linux

Others Skills: Subnetting / TCP/IP / VLAN / Routing Protocols / Network Troubleshooting / Hardware Configuration

EDUCATION & CERTIFICATIONS

Cisco Certified Network Associate (CCNA) Training | *In Progress*

- IT Academy
- Focus: Routing and Switching, Network Security, IP Subnetting, Device Configuration.

IC3 Digital Literacy Certification | *Certiport*

- Focus: Computing Fundamentals, Key Applications, Living Online.

Digital Youth Engagement Programme Certificate | *Ministry of IT*

- 18-Hour Technical Introduction to Coding Basics.

Secondary School Certificate (SC) | *New Eton College*

- Successful completion with credits obtained in: Computer Studies, Mathematics, English, Physics, and French.

PROFESSIONAL EXPERIENCE

Barista & Cashier | La Caffè (Tribeca Mall)

- **Teams & methods:** Active team collaboration, fast-paced shift workflow management, customer relationship management, and strict operational hygiene protocols.
- **Description:** Delivered high-quality customer service in a fast-paced environment. Managed accurate cash handling, Point of Sale (POS) system operations, and provided attentive customer service. Maintained excellent communication, active problem-solving, and teamwork under high-pressure shifts.
- **Tasks:**
  - Operating and basic troubleshooting of POS system terminals and transaction hardware.

- Providing attentive front-line customer service and handling balance verifications.
- Managing beverage preparation, inventory tracking, and station upkeep.

• **Tools & Technologies:** Point of Sale (POS) Systems / Digital Terminal Equipment / Inventory Tracking Hardware / Cash Management Terminals.

Salesman & Cashier | Celio (Bagatelle Mall)

• **Teams & methods:** Retail operations framework, inventory replenishment systems, direct sales communication, and team-based target coordination.

• **Description:** Assisted customers with product inquiries, driving store sales metrics while maintaining a welcoming retail environment. Handled high-volume financial transactions efficiently using the store terminal and supported daily inventory management.

• **Tasks:**
- Processing customer purchases using specialized digital retail check-out systems.
- Resolving customer service inquiries and managing point-of-sale terminal verification.
- Organizing floor stock, checking inventories, and ensuring visual presentation consistency.

• **Tools & Technologies:** Retail Terminal Equipment / Inventory Tracking Layouts / Digital Point of Sale.

ACADEMIC & PERSONAL PROJECTS

Personal Portfolio Web Application

• **Description:** Designed and developed a responsive, multi-page personal portfolio web application from scratch. Built clean user interface components to effectively present professional summaries, academic credentials, and core technical skills. Focused on structured code layouts, semantic accessibility, and fluid cross-device responsiveness.

• **Teams & methods:** Agile methodology, independent self-guided development, local deployment workflow, and iterative design refining.

• **Tasks:**
- Writing semantic structural foundations and modular page layouts.
- Styling responsive grid and flexbox configurations for clean visual presentations.
- Implementing client-side logic to handle clean profile formatting rules.
- Managing project versioning tracking and codebase tracking repositories.

• **Tools & Technologies:** HTML5 / CSS3 / JavaScript (ES6+) / Git
